Announcement Content	
Explanations	

There are news in the media and social media accounts regarding agreements for using carbon fiber products manufactured by our joint venture DowAksa İleri Kompozit Malzemeleri San. Ltd. Şti. ("DowAksa") in seismic retrofit projects. DowAksa has been selling products to be used in building reinforcements for many years, but there is no decision taken or an agreement signed by our company in this regard. As of today, our facility continues to fulfill its obligations to our current customers by operating at full capacity and discussions about the capacity to allocate for structural reinforcement systems continue to be held at high level. Developments will be shared with the public as soon as possible.

Submitted to the public information.

Material Disclosure Announcement has been prepared in Turkish and in English. In case of any discrepancy between the two versions, Turkish disclosure will prevail

We proclaim that our above disclosure is in conformity with the principles set down in “Material Events Communiqué” of Capital Markets Board, and it fully reflects all information coming to our knowledge on the subject matter thereof, and it is in conformity with our books, records and documents, and all reasonable efforts have been shown by our Company in order to obtain all information fully and accurately about the subject matter thereof, and we’re personally liable for the disclosures.
